

Central India in spotlight

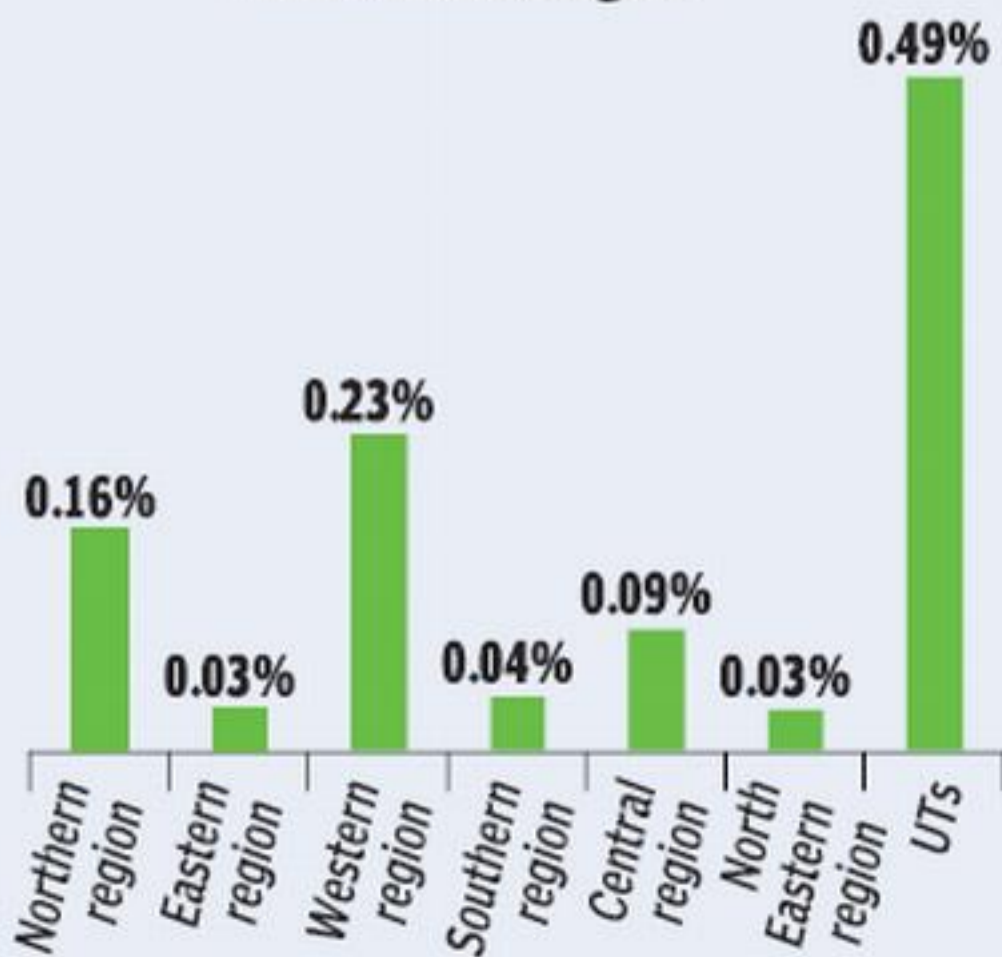

1 Primitive tribal groups are found in North-East India. UTs in rural India have higher concentration of people with basic education

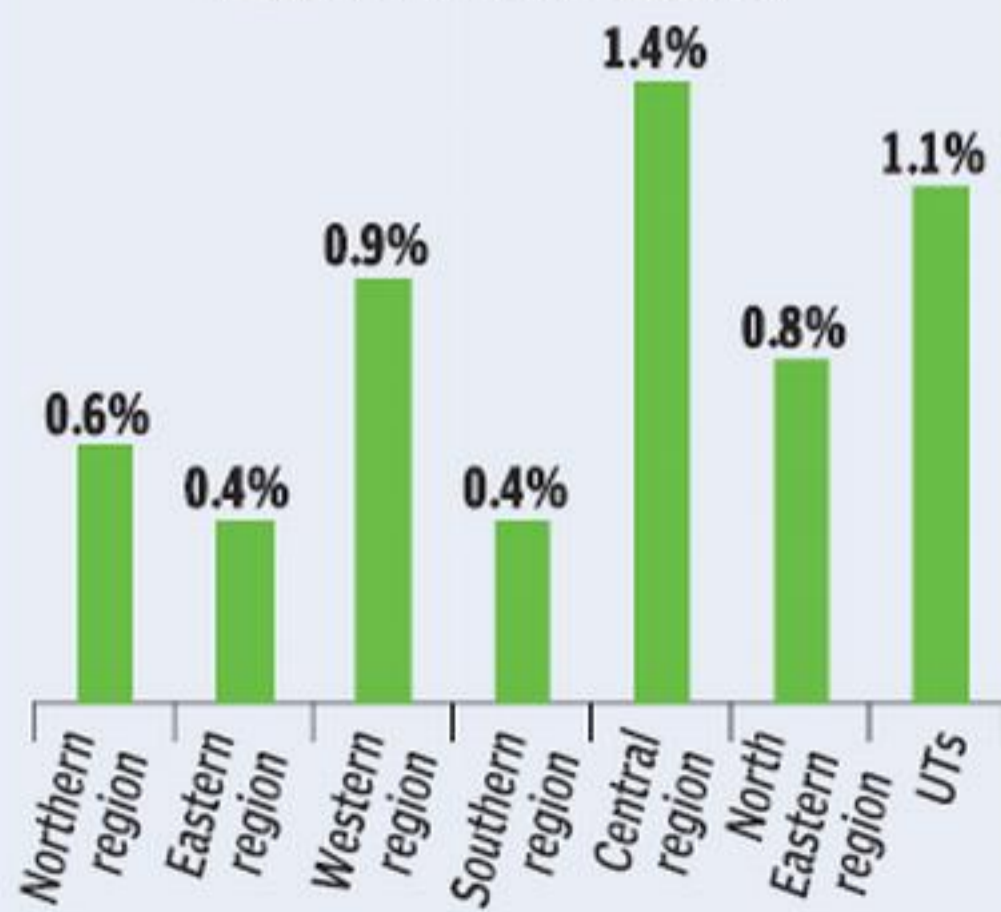

2 The percentage of legally released bonded labour is highest in UTs

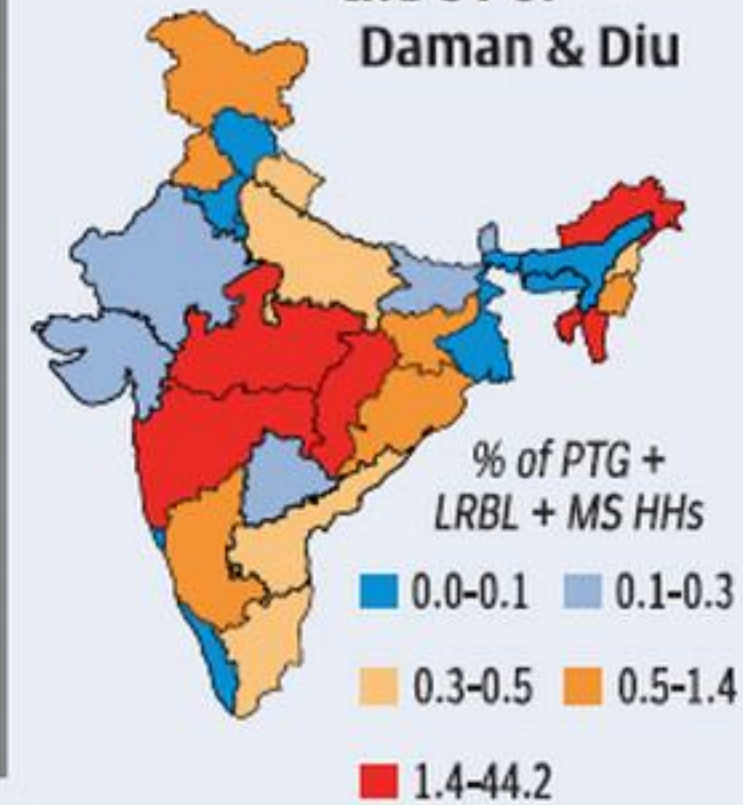

3 Eastern India has the least percentage of manual scavengers

4 All three vulnerable sections combined, the percentage is highest in Central India

5 Arunachal Pradesh has the highest PTG, LRBL and MS households after the UT of Daman & Diu

Note: PTG - Primitive Tribal Group; LRBL- Legally Released Bonded Labour and MS- Manual Scavenger
